GEAR UP!

FOR THE FIRE!

WHERE THERE'S SMOKE...

- Follow the directions on the package if you use man-made logs. Never break a man-made log apart to quicken the fire.
- Never close the damper with hot ashes in the fireplace and be sure the fire is out before retiring for the evening.
- Always use a sturdy screen when fireplaces are in use.
- Burn only wood. Paper or pine boughs can float out the chimney and ignite your roof or neighboring homes. Also, plastic, charcoal or Styrofoam can produce toxic gases!
- Make sure the fire is out before leaving the house or going to bed.
