

Safety Bulletin

Foreign Object Damage
OIF SB-012

- Account for all tools, hardware, and other equipment at the end of each maintenance task.
- Mark tools for ease of accountability.
- Check engine inlet screens for loose, trapped, or broken objects.
- Immediately report FOD and potential FOD to your supervisor/FOD NCO.
- Place all objects that may produce FOD in the proper container.

What kind of damage can FOD cause?
