CONTROL

HMMWV / UAH ROLLOVER PREVENTION IS ALL ABOUT

CONTROL:

Crew Coordination. Driver, senior occupant, gunner and passengers know their responsibilities; remain vigilant; identify and communicate potential hazards.

Observe your surroundings. Be aware of bridge limitations, low hanging power lines, soft-shouldered roads, and the presence of culverts, canals, and ditches.

Never drive the vehicle beyond its limitations. Avoid abrupt steering, excessive acceleration, and panic braking.

Training. Conduct mission briefings, rollover drills, and crew coordination refreshers prior to every mission.

Reduce speed in turns and on wet or unimproved surfaces.

Organize all equipment. Ensure everything is securely stored and tied-down to avoid projectile hazards in the event of an accident or rollover.

Leaders ensure only properly trained, qualified, and licensed personnel operate vehicles and equipment! Insist that all personnel wear seatbelts / gunner restraints.
